Optec Introduces IP68 Harsh Environment Solutions which Design to Against the Extreme Environmental Elements

HONG KONG, July 7, 2015 – Optec Technology Limited, a leader in fiber optic interconnect and assembly products, today introduces its ruggedized IP68 solutions that offer advanced reliability and utmost protection in various harsh environments. Optec's harsh environment fiber optic connector is designed with rugged and robust housing which sealed to IP68 rating, the highest ingress protection level for all its kind. It provides excellent waterproofing and dust-free qualities for harsh environment applications. Its proprietary bayonet locking design provides the reliable protection and easy connection possibilities, and also helps to deliver the distinguished performance in robustness and reliability to deal with those typical challenges like extreme temperatures, humidity, vibration, as well as chemical corrosive gases.
The IP68 rated solution is widely used in base station & FTTA, transportation & railway station, industrial networks, broadcasting networks and all possible extreme environments.

Please visit www.optec.com.hk for more information about this IP68 Harsh Environment Connector Solutions.

About Optec Technology Limited
Optec Technology Limited is the world's leading fiber termination solutions provider which serves extensive optical networks throughout public and private sectors. Its wide variety of multifibers products includes board mounted solution for embedded optical modules, high-density 40G/100G applications, to MT-based outdoor harsh environment solutions. Please visit www.optec.com.hk for more information.
