

Optec Announces New Website Launch

The completely redesigned website offers enhanced rich content focused on the Company's Multi-fiber Engineering Excellence.

HONG KONG, May 23, 2017 – Optec Technology Limited, a leader in fiber optic termination and cabling solutions, announced today the launch of its newly revamped website. The new website has been redesigned to provide a user friendly experience with improved navigation and functionality. It also provides visitors an enhanced rich content focusing on its Multi-fiber Engineering Excellence with cutting-edge solutions and latest product offerings.

Created with the user experience firmly in mind, the new website has been designed using the latest technology, so the site is compatible with today's browsers and mobile devices in a fully responsive and mobile-friendly layout.

The quick button of "Looking for Products?" and the section of "Product Finder" are featuring a highly navigation-friendly structure, helping to make Optec's vast portfolio of fiber assembly products easy to browse. Users can now benefit from richer online content that is easier to navigate, they can always access the latest product information, view product images and download up-to-date product leaflets from the improved product pages.

In addition, the website provides a login platform to dedicated customers, so that customers can sign-in to the website and access protected areas for downloading latest shipment schedule, test reports and other useful documents.

Optec's new website will be constantly updated with product news, business activities and events. Visitors are encouraged to visit the website at www.optec.com.hk to explore more.
